Solar Savings Part 3

Negative Bills

In early 2017, we asked our customers to send us their lowest bill since going solar. In return, they were entered in a random drawing to win a \$100 Visa Gift Card.

We more than 100 of our customers' lowest bills.

Many of them were 'negative bills' where they produced more energy than they consumed.

In the next 6 pages, you'll see a sampling of various negative bills.

Please pardon the image quality.
Most of the bills we received were low resolution images.

We blocked out personal information in blue boxes.
